

# Veganergy™

## PALM FREE VEGAN MCT POWDER

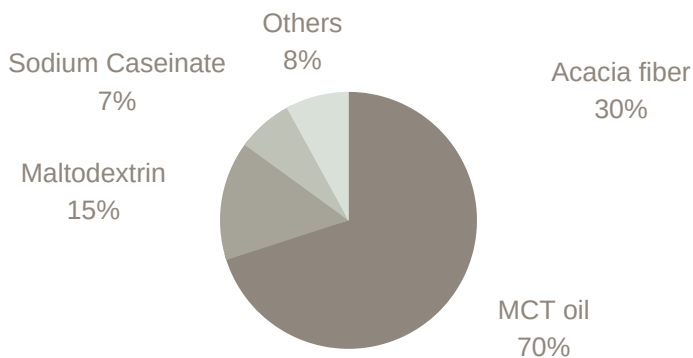

### Empower your products with MCTs

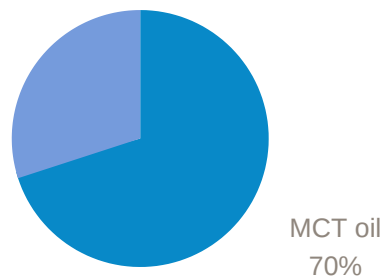

MCTs are best known as energy givers. These triglycerides made from coconut fatty acids are rapidly converted in our bodies to ketones. These ketones form an alternative to glucose that gives our body & brain easy access to energy without the negatives that come with carbohydrates.

Our Veganergy™ powder is fully vegan, highly mixable, and contains no carbs but only fat & fibers that have no impact on the glycemic index. Dairy-based powders are often made with maltodextrin (and even glucose syrup or silicon dioxide!) and result into an unwanted glycemic response.

### Other MCT powders

### Veganergy™

*Currently no official EU health claims are allowed.*

Original scientific papers are available freely upon request

Veganergy™ is available in bulk and private label formulations fitting your needs. Often used in specialised (ketogenic) diet, sports nutrition and elderly nutrition

PALM FREE MCT  
POWDER FOR YOUR  
PRODUCT RANGE

HELPS TO  
BURN FAT

MCTs - even without being on the ketogenic diet - can help burn fat, especially visceral fat!
